Reasons for comment:	- Other
Comments:	Hi, I am a user of the hydrotherapy pool at Henry House Therapy Centre. Using hydrotherapy helps me to manage my chronic health conditions and I currently use the pool once a week. I'm aware that the solar panels help keep the cost down to just £12 a session which makes it possible for me to afford to use the service. The service is used by a number of people with illnesses, disabilities or other

needs - many of whom are unable to work or living on a pension - and is an amazing community resource.

Especially with the recent energy price volatility and increases, the solar panels help to keep this service accessible to those who need it.

Please approve this application for retroactive planning.
Many thanks,

Jenny Bootle

Kind regards
