Comments Details

Comments:	The submission refers to 16 active charging bays, with the remaining 100 having passive provision. This equates to just under 14% active charging. The West Sussex County Council (WSCC) parking guidance (https://www.westsussex.gov.uk/media/1847/guidance_parking_res_dev.pdf) specifies active charging provision rates in Appendix B. For 2022, the year permission was granted, the rate is 37%. The proposal falls well below this. WSCC will need to respond to this.

Kind regards
