Dear Sirs

Your reference: AWDM/1276/13
Retrospective application for solar panels to garage roof, with screening.
233 Brighton Road, Lancing, W. Sussex BN15 8JA

For the following reasons I am objecting to the above application.

1. The panels, as they are, are attracting seagulls and pidgeons, who are taking shelter behind them, and also making it an ideal nesting site.

2. Seagulls and pidgeons are already in

the area, and when my grand-children visit it can be very frightening, and it makes them afraid to eat and play in the garden.

3. This structure will form a safe haven for the birds and could also attract other vermin.

4. The structure is an eyesore in its present form and any "structure" erected around the panels will not alter that.

I, therefore, confirm my objection to this application and thank you for the opportunity to bring these points to your notice.

Yours faithfully,

[redacted]

J. KUHLER.
