WEST SUSSEX COUNTY COUNCIL CONSULTATION

TO:	Adur & Worthing Councils FAO: Hannah Barker
FROM:	WSCC - Highways Authority
DATE:	20 May 2019
LOCATION:	4 The Burrells Shoreham-By-Sea BN43 5HF
SUBJECT:	AWDM/0749/19 Proposed garage extension and conversion to provide annexe. Alterations to include raising of roof and new door and window to replace existing garage door.
DATE OF SITE VISIT:	
RECOMMENDATION:	Advice
S106 CONTRIBUTION TOTAL:	

This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals which include up to 5 residential units or extensions to single units accessed from roads that do not form part of the Strategic Road Network (SRN). As such the comments provided by Planning Services should be considered to be advice only, with respect to this planning application.

This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. A site visit can be arranged on request.

I refer to your consultation in respect of the above planning application and would provide the following comments.

The proposal is for the Proposed garage extension and conversion to provide annexe. Alterations to include raising of roof and new door and window to replace existing garage door, it is located on The Burrells which is a Un-Classified Road subject to a 30 mph Speed limit.

An inspection of data supplied to WSCC by Sussex Police over a period of the past five years reveals that there have been no recorded injury accidents within the vicinity of the site. Therefore there is no evidence to suggest that the existing access is operating unsafely.

Parking
The applicant has not submitted any plans showing current parking arrangements but upon inspection of WSCC local mapping the LHA can determine that there is adequate parking space already present and does not impact upon the Publicly Maintained Highway.

Sustainability
The site is located in a sustainable location within walking and cycling distance to a range of public services, amenities and employment options. Bus and rail links provide a

realistic travel opportunity for longer trips. It would not be anticipated that future occupiers of the dwelling would be reliant on the use of a private motor vehicle.
As a result, The Local Highways Authority (LHA) would like to see cycle storage space being implemented after the removal of the garage and shed.

Summary

The Local Highway Authority (LHA) does not consider that this proposal would have 'severe' impact on the operation of the Highway network, therefore is not contrary to the National Planning Policy Framework (paragraph 109), and that there are no transport grounds to resist the proposal.

If the LPA are minded to approve the application, the following conditions should be applied:

Cycle Parking

No part of the development shall be first occupied until covered and secure cycle parking spaces have been provided in accordance with plans and details submitted to and approved by the Local Planning Authority.
Reason: To provide alternative travel options to the use of the car in accordance with current sustainable transport policies.
