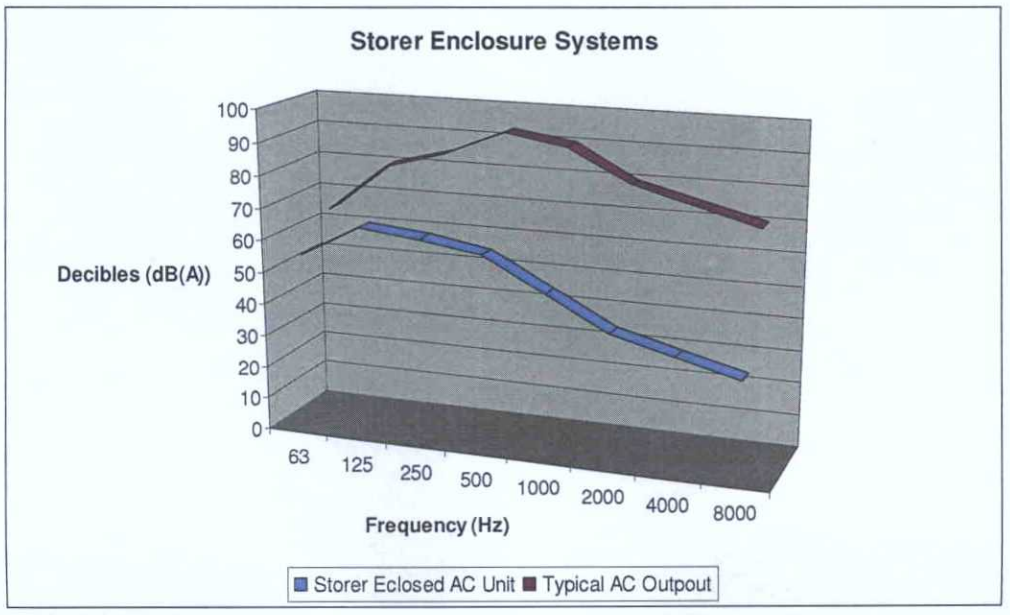
Storers

"Storers enclosure products are designed with noise reduction performance in mind."



Noise Data

Our enclosure systems have been designed to achieve the highest possible noise attenuation characteristics across a wide frequency spectrum.

Storer Enclosure Systems

Octave Frequency in Hertz (dB Ref 2 x 10-5 Pascals)

63	125	250	500	1000	2000	4000	8000
12	13	20	29	36	37	39	39

Overall reduction of 25dB(A)
