Subject : Proposed building extension
at number 11 Boundstone Lane.

Dear Sir

Thank you for the letter advising of proposed building extensions to number 11 Boundstone Lane, and thank you to Eve Hearsey for the telephone call today 20th Oct, 2017.

I feel however I must object to certain aspects of Design, Appearance and Character of the proposed extension.

(1) Eve Hearsey told me the extension includes windows in the north side elevation so I must object to any DESIGN that will be only 6 inches (150mm) from the boundary and will therefore OVERLOOK my property. Said windows will also effect the PRIVACY of my property.
(2) I also object to the DESIGN on the basis that should I wish to build an extension of similar size and dimension it would not be possible because of the close proximity of Number Elevens extension, and any proposed extension of my own would obliterate any windows OVERLOOKING my property.
(3) Since there are no two properties in Boundstone Lane of similar DESIGN, i.e. That have extensions bringing two properties to within 12 inches of each other I must object to the CHARACTER and APPEARANCE of this proposed extension.

Thank you for your co-operation,

[redacted]

R.S. Luckhurst (Mr)
