Reasons for comment: - Privacy Light and Noise

Comments: My only objection is to the breach of my privacy which the current arrangement (raised platform at rear, with table and chairs) causes. I have previously sent photos to Planning.
When people sit round the aforesaid table, they look straight over my boundary fence (which is 72 inches high) and can also see into my lounge. I understand that the proposed fence (which I assume is separate from mine) can only be a maximum of 2 metres (78 inches) high and this would not affect the privacy situation. If the proposed glazed screen (I will not be inspecting the plans) solves the problem, this would be acceptable, but it must be a permanent fixture.
