

20th May 2008

Dear Sir,

As per the attached application we are applying to erected a new Boundary fence and also include the use of land into our domestic garden.

As per the attached drawing we would like to erect a fence where by we have privacy for our small children. The current fence doesn't allow my children protection from the passing foot traffic on the pavement and on many occasions we've found passers by looking into our garden whilst the children are playing, we believe this is a risk to the children's safety and therefore want to apply for a new fence to be built to a height where by foot traffic on the pavement would not have visibility into the back garden.

Our research shows many other fences in the area (which also sit on the highway) have a fence height of between 6.5ft and 7 ft. As per the attached photos houses No15, No 57, No 60 Downsway all have a height fence whereby foot traffic can not look into the back garden. We feel this also sets precedence for our request and therefore we would like to apply for the requested height of 1800m 6ft as per the attached application.

As per the drawings we would like to keep the fence style in keeping with the surrounding properties and therefore we've designed the fence in the same style as the existing fence.

We hope you take all of the above into consideration when reviewing our application.

I look forward to hearing from you in the near future,

Regards,
Karen Seymour
