Heritage Statement and site context

The property is a grade II listed building, C19 exterior to a possibly earlier building, L-shaped with two storeys. Tiled roof with pentice at the back of both wings and casement windows.
The application property and the neighbouring properties formed Halewick Farm and were converted at the the same time and are sited around a central courtyard.
Further, it is considered that the proposal accords with the Council's published Householder Design Guide. This is because it is acceptable in design terms and in terms of the amenities of neighbouring occupiers.
Lastly, it is not considered that the proposal will give rise to undue overlooking of the neighbouring properties.
