Your Ref: AWDM/1096/15

22nd September 2015

Dear Sir/Madam

We are writing in connection to my letter to you dated 4th August 2015 regarding the Retrospective Planning Permission to Retain unobscured glazing to 24 Greenoaks, North Lancing.

We would like to clarify our position with regard to our complaint about the velux windows that have been a ' bone of contention' as outlined in our previous correspondence to you.

Due to the whole position of losing privacy and the events that have taken place since the windows were constructed we have been extremely upset and because of this we inadvertently forgot to mention that we had taken photographs of the offending velux window which I now enclose for your perusal.

We have detailed the position that the photographs were taken from our property which you will find on the back of each one. You may find the photographs of interest when making a decision regarding the retrospective planning permission of thevelux windows at the said property.

We are in favour of the window being removed and return the roof back to its original status and hope that some consideration will be given to our request.

Yours faithfully

[redacted]

Mr and Mrs Banaszak

Encs.
