Subject: OBJECTION to AWDM/1019/25 - Southview Road

To: planning@adur-worthing.gov.uk <planning@adur-worthing.gov.uk>

I object to the planning to build on the patch of land between Underdown Road and southvview Road in southwick.

Last year 2025 saw considerable floods at the bottom of Underdown Road.

Building on the land between Underdown Road and Southview Road which currently acts as a natural soak away land for an underground river will only exacerbate the risk to flooding which caused awful consequences for residents last year.

In January 2025 Southern water had to send drainage tanks regularly every day and night to drain people back gardens so that their houses wouldn't flood.

Please do not build on this land.

I am a current resident living at
88 Underdown Road I, southwick, BN42 4HL

Kind regards
Kate Tolman
