SAFETY WORK SCHEDULE: CROWN LIFT - Entrance to Hillside Avenue

T1. WEEPING WILLOW TREE (*Salix*) & T2.-T7. LIME TREES (*Tilia*):

These trees are growing on the grass verges on either side of the entrance to Hillside Avenue. They are growing well but the lower branches are now overhanging the road and are providing a hazard to pedestrian and road users.

A crown lift up to a height of 4-5m from the ground for all trees is recommended to improve safety to road users and to avoid vehicle damage.
