Reason for Objection: Overlooking and Loss of Privacy

Dear Ms O'Keeffe,

I have a concern over the proposed roof terrace in the above planning application.

The proposed roof terrace faces directly towards the rear of my property and anyone using the terrace would have direct views into my home, including my kitchen and two reception rooms.

Whilst I am happy to close rear bedroom and bathroom blinds for privacy when required, it would be unreasonable to expect me to cover the downstairs rear windows, patio doors and French doors in order to maintain privacy inside my house. As my reception rooms are North facing, it is important to me to maximise the natural daylight coming in for my personal wellbeing.

If planning permission is granted for the roof terrace, may I suggest that this is subject to the glass balustrade being of obscured glass and of sufficient height to prevent overlooking neighbouring homes.

Thank you for your consideration.

Yours sincerely

Anne Williams
