Date: 28 March 2012

My Ref: ADC/0402/10

Dear Mr Cranford,

67 Manor Road, Lancing BN15 0HB: Proposed 2 detached three-bedroom dwellings, detached garage and re-located access: Details pursuant to condition 09 (archaeology) of permission ADC/0402/10

Further to my letter of 23 March 2012, John Mills, archaeologist at WSCC, has contacted me.

He tells me that he mentioned to you (or your archaeological consultant) in January that you (or they) need to agree with him what form of archaeological investigation is needed. He says that he asked for details of foundations as it is the type and amount of excavation that will have the greatest influence on the investigation required.

Therefore, please can you and/or Pro-Archaeological Services contact him with details of the proposed excavation for foundations as soon as possible and prior to the start of any groundworks on the site.

Yours sincerely,

Keith Morgan
Planning Services Manager
