Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	Dear Marie, Whilst we are generally supportive of the proposed development, we do have objection matters as noted below. The key matters are in relation to the rear proposed extension and overlooking impacts which will result in: 1. Loss of light, and 2. Loss of privacy vis-à-vis the [side] habitable bedroom in our neighbouring property. Loss of light: - The size, bulk and (roof) height of the proposed extension will reduce natural light into the bedroom and create a sense of enclosure. Loss of privacy: - The proposed side bedroom with window is directly opposite a habitable bedroom in our

existing property. We note that to reduce impact, the proposed window is to have full frosted glass and horizontal openings. However, the size and location of the window will still lead to a loss of privacy.

To balance the needs of the proposed rear extension with those of the existing neighbouring property, it is kindly requested that the proposed design be reconsidered, accommodating the matters raised above.

Kind regards
James

Kind regards
