Dear Sir,

Planning Application 24 Overhill, Southwick, W. Sussex
Ref. AWDM/1301/15

With reference to your letter of the 7th September, we live at number 22 Overhill and we wish to comment on the proposal as shown below :-

Loss of Privacy and Light

The side dormers on the south elevation on the plans as shown will overlook our windows on the north side of our property. The distance between our two ~~properties~~ buildings is only 10'5" (1250), which is a shared driveway, and due to the close proximity and the height of the dormers this will severely restrict the amount of light which we at present receive in our dining room, toilet, front door & hallway and bathroom. We are also concerned about our loss of ~~privacy~~ privacy.

Due to the above we wish for our comments to be taken into consideration especially as our windows are facing north.

Yours sincerely

[redacted] [redacted]
