Subject: Re: AWDM/1845/16 - 100 Old Fort Road

Flag Status: Flagged

Dear Peter, They would be specially fabricated from sheet metal, so i can't find anything comparable. The angles are designed to reflect light back into the room as sunlight strikes them as it comes over the building from the south.
Something like this in scale:

Hope that helps a bit.
Kind Regards,
Howard
Director of Architecture

Thanks. It would also be useful to see details of the proposed louvres. Can you please forward me a link to what you are proposing?

Thanks

Peter

> Dear Peter, Apologies for the errors on drawing 103, I attach revision 01 of this drawing which corrects the material notation and adds a line showing the extent of the garage door. The door proposed is a horizontal sliding curved door which is a little unusual, so here is a link to the manufacturers literature:

Your plans 100, 101 and 103 all contain a materials schedule, numbered 1-7. However, I cannot see numbers 6 and 7 within the plans. On drawing 103, number 3 is indicated as being "silver grey garage door" but the arrow for number 3 points to the canopy and also to what appears to be a zinc clad wall at the front of the garage.

Will you please correct the key and resubmit. Will you also please clarify and show on a plan the position of the garage door as it is not discernible from the submitted information.

Thanks

Peter
