Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Reasons for comment: - Other

Comments: I have studied this application and would comment as follows.
I consider this planning application reflects the current needs for family homes on what is currently of little purpose and benefit to the community.
The sympathetic high quality design embraces modern practices and a

perfect fit for the surroundings not imposing on local green gap. The economic benefit is obvious together with sustainable location in relation to local transport and amenities. I personally support this application and would encourage its approval.

Kind regards
