Why buy me

- 🔵 **DUAL Inverter Compressor:** Delivers year-round, powerful heating & cooling even in extreme weather.
- 🔵 **LG Active Energy Control:** Adjust energy use easily (80% / 60% / 40%) to save energy when fewer people are home.
- 🔵 **LG ThinQ app:** Control & schedule your air con from anywhere via WiFi. Smart scheduling saves energy.
- 🔵 **Self-cleaning:** Prevents bacteria and mould build-up, extending the unit's lifespan.
- 🔵 **Sleep Mode:** Automatically adjusts temperature overnight for a more comfortable sleep.
- Efficient heating & cooling: Consumes just 1.56 kW (cooling) and 1.61 kW (heating) with A++ cooling and A+ heating ratings.
- Ultra-quiet operation: Enjoy peace with noise levels as low as 31 dBA.
- Eco-friendly cooling: R32 refrigerant is both energy-efficient and safer for the environment.

Questions & Answers

The details

Fast and powerful cooling & heating: Stay comfortable in any season with the DUAL Inverter compressor, which delivers fast, efficient cooling in summer and reliable heating in winter—even in extreme weather.

Control your energy consumption: Perfect for limiting the maximum energy usage when there are less people in the house. Use LG Active Energy Control to adjust power usage to 80%, 60%, or 40% at the touch of a button—helping to [reduce](#) electricity bills without compromising comfort.

Control from anywhere with LG ThinQ: With LG ThinQ, you can adjust temperature settings, monitor energy use, and set schedules from anywhere using your smartphone via Wi-Fi.

R32 - Highly efficient ecological refrigerant: The R32 refrigerant cools faster, is more energy-efficient, and has a lower environmental impact compared to older refrigerants - helping you stay comfortable while being kinder to the planet.

Automatic internal cleaning: The automatic internal cleaning function prevents bacteria and mould buildup on the heat exchanger, keeping your air fresh, reducing maintenance, and extending the unit's lifespan.

Sleep-friendly comfort: Enjoy uninterrupted rest with automated sleep mode, which gradually adjusts the temperature overnight to match your body's natural cooling cycle—keeping you comfortable while saving energy.

Quick and easy installation: Designed for simpler and more efficient installation, regardless of the environment and the number of people participating in the installation process. By reducing the labor and time required, you can enjoy your air con in more homes in less time.

Built-in heating: Stay warm in winter and cool in summer with low energy consumption—just 1.56 kW for cooling and 1.61 kW for heating. With an A++ cooling and A+ heating rating, you can enjoy your air con throughout the year.

Quiet operation: This air con runs quietly, ensuring a peaceful environment whether you're working, relaxing, or sleeping.

Essential info

- Power Supply: 220-240V~ 50Hz, 1Ph
- Indoor Dimensions (L*W*H) (CM): 99×21×34
- Indoor Net Weight : 12kg
- Outdoor Dimensions (L*W*H) (CM): 77×29×54
- Outdoor Net Weight : 34kg
- Rated Airflow Indoor (m3/h) : 1110

More info

- Nominal power in cooling (W): 50000 - 18000 BTU
- Max. Cooling Power (W): 55000 - 18700 BTU
- Nominal power in heating (W): 58000 - 19800 BTU
- Max. Heating Power (W): 64000 - 21800 BTU
- Cooling Energy Consumption (W):1560
- Heating energy consumption (W): 1610
- SEER in Cooling: 7.0 (A++)
- SCOP in Heating: 4.3 (A++)
- Copper Pipe Type length Max.: 20m
- Refrigerant type: R32
- Liquid pipe diameter: 1/4
- Gas pipe diameter: 1/2
- Sound pressure for indoor unit (dB(A)): 31
- Sound pressure for outdoor unit (dB(A)): 53
- Energy Class: Cooling/ Heating : A++/A+
- ThinQ (Wi-Fi): Yes
- Dual Inverter Compressor
- Cooling, Heating, purifying & Dehumidifying
- Quick and Easy installation
- Energy Saving Dual Inverter Technology
- Heat Pump for efficient heating
- Ultra-Quiet Operation
- Digital Led temperature and function display
- 24 Hour Timer
- Self-diagnostic function
- Silent Mode
- Auto Restart
- Comfort Air (Indirect Cooling)
- *S:Sleep/L: Low/M: Medium/ H: High

User Manual »

Tech stuff

The unit must be installed by a F-Gas qualified AC engineer. Please ensure the qualified fitter reads the user manual in full before installing.

These units must be installed in accordance with F-Gas regulations. The gas must be handled by a qualified F-Gas personnel. Further information on the requirements and ensuring the engineer is qualified can be found at: [Government Guidance](#)

* Note: In individual rooms, the outdoor unit footprint and provide extra energy savings; our outdoor units have a rating lower than the sum of indoor units BTU. Please note this will not affect the cooling or heating power as our units use inverter compressors and they balance the cooling or heating power among the indoor units to achieve the target temperature in the shortest time. Please make sure you size the units as per our room guidance
