Description of Proposed Works

Please describe the proposed works

The property is a private dwelling located on Howard Road in Sompting. The replacement garden room is positioned within the rear garden. The northern boundary adjoins open agricultural land, while neighbouring residential properties are located to the east and west. The garden room occupies the rear part of the plot in substantially the same location as the former detached ancillary outbuilding.

Prior to construction, the site contained an ancillary domestic outbuilding serving the dwellinghouse. The existing structure has been replaced with a modern timber-framed garden room intended for ancillary domestic use. The proposal does not create a separate dwelling, commercial premises or independent unit of occupation.

The near completed building measures approximately 6.0 metres by 3.0 metres with an overall height of approximately 2.57 metres. The structure comprises a timber frame with cedar shiplap cladding, black aluminium-framed glazing and an EPDM flat roof. The design adopts a contemporary but modest appearance that is appropriate within a domestic garden setting.
