Dear Sir / Madam

Ref No: AWDM/1063/14

I am in receipt of the amended description and plans for extension to a Care Home. Whilst my original objections stand I wish to submit a further objection for consideration.

(1) - If this proposal is granted the light to my upstairs front property would be significantly affected. I have directly opposite and this is a real concern to me.

I am physically disabled which affects my mobility and balance. Good lighting is essential to me as I fall easily.

The size of the existing Care Home does not block my existing natural daylight in anyway -

(2) - The appearance of the Care Home, if permission is granted - would certainly not be in keeping with the neighbourhood. Indeed the Home would look more

[redacted]

like an "institution" rather than a Home. Surely they would not be in keeping with the plans to regenerate housing. –

Yours sincerely,

[redacted]
