We want to object to the planning application as above at 24 grafton gardens

1 An 8 foot6 wall and 3 foot roof is far to high
2 We would lose most of the light to our back room
3 The building would block out the view of the general area
4 We feel that the building is to long and big for a conservatory and generally out of keeping with the area.
5 When we sit in the patio area we do not want to look at a brick wall.
