Tree Survey and Inspection

Tree (*Species*) T1 = Silver Birch	Age (*est*): T1 = 20yrs	Height: T1 = 5-6m

LOCATION (Site Address) 14 Queens Place Shoreham

Proximity of other trees

Importance of tree to locality Conservation area

REASON FOR REPORT

Request to fell tree in rear garden of property. The tree cannot be seen from the road. Work has been carried out to this tree previously to reduce the height and spread.

REMARKS / CONDITION:

This tree is in reasonable health and has grown vigorously since the last work carried out in 2007. The request this time is to fell the tree on the grounds that it takes too much work to keep it small. In most circumstances this would not be acceptable; however in this case the tree is not contributing to the area as it is only visible from the backs of the surrounding homes. The request includes a proposal to replace the tree with a smaller species such as Betula pendula Fastigiata, Dalecarlica or a weeping form, all of which produce a smaller tree.

Due to the trees location there would be little benefit in placing a tpo on it.

WORK / REQUIREMENTS;

Consider allowing a replacement.

Recommend above works be permitted.

TREE VALUE

A	Important tree worth saving	
B	Less important than above	✓
C	Suspect tree requires monitoring	
D	Dead or of no consequence
