Dear Alistair Dodd

As you are aware we are currently unable to undertake site visits regarding our submitted planning applications. However, I have been reviewing your plans, and it seems to me that I might be able to determine the application by way of 3D Google Maps and our own Earthlight programme, without a site visit.

I am thereby starting my report on this application and request from you an extension of time to say Friday 5th June to deal with the application. If you agree to this extension, I would be grateful if you could email me back by return confirming your acceptance of the date of the extension.

One other thing, if you happen to have any photographs that you could submit to further assist in the application's determination, it would be of great assistance.

Kind regards
Eve
