Dear Sir/Madam

Change of use from Use Class B1 (Business) to mixed use as car repair workshop

(Use Class B2 General Industrial) and MOT station (Use Class Sui Generis)

Unit 6 Lady Bee Park Albion Street Southwick Brighton

With reference to the above application, I must express my concerns about parking and access. Trades associated to the motor trade naturally generate fairly large numbers of vehicle movement and parking. The Lady Bee Industrial Park is already overfull with cars, often double parked and access to delivery firms is often very difficult, any more motor related business's would only make the situation worse.

Yours faithfully

Peter Fenton
