Dear sir,

I wish to complain about the new townhouses that have been constructed next to my bungalow.

The new address is 1 Freshbrook Road and live at 25a Freshbrook road.

It beggars belief, that they were allowed to build these townhouses that are taller than the retirement flats to the right of me in the 1st instant.

The construction of these townhouses, has now completely blocked the sun from the west into my living room, which I had and enjoyed in the past. I am sure that you enjoy sunshine into your living space as do many other family's.

My garden will no longer be the haven that I enjoyed as I will now have people able to look in and my privacy will now be intruded upon by this monstrosity.

As to the the parking issue for the new occupants. We already have parking issues for the current residents, let alone for the new occupants of these new townhouses.

Yours sincerely

A.K.Burke (Mr).
