Comments

Submission Type:
Customer objects to the Planning Application.

Comments:
This development was submitted and passed on a previous application. It was passed with strict guidelines as to when and how the works were carried out, many of which were ignored by the builders, indeed when I pointed out to one of them that they were not permitted to start work before 8.00am I was told to **** off. They should be made to reduce this building to what was actually submitted in the first place, because if they made an error in the setting out of the footings they should stop work and resubmit new plans before continuing with the project relying on the council backing down and allowing them to get away with this. As they still have to split the original property, I wonder what further changes they will make to the original plans?
