Name:	Ms Nicola Gamble
Address:	Flat 9, Eastfield House, 8 - 10 Selden Road Worthing, West Sussex BN11 2LL

Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	I would like to make a comment on the proposed amendment to the existing shed at 5 Selden Mews. Initially I thought the amendments to the shed would improve the situation for me. However, I have subsequently taken time to consider the proposal, and have also taken advice from friends and more importantly from professionals. It is my feeling now that the proposed modifications would not drastically improve my situation with regards to loss of light. The main issue is that even after the modifications, the structure will remain in a prominent position directly outside the only window in my living space. It will therefore, continue to have an impact on light and the outlook from this room. The location of the building is the problem. Additionally, as the structure is so close to my living space, a secondary factor for me could be noise. I understand that the plan is to use the structure as a space for teenagers rather than simply for storage. Due to the proximity and position of the building I would be concerned

about the impact of noise on my daily life.

I do not wish to cause any upset to my neighbour by making these comments. However, ultimately I have to consider the impact on myself and my life.

Kind regards
