Comments: i would happy for construction to go ahead but i have 2 cocerns i would like resolved 1 plan says no trees in fact there are two 30m trees within 1mt of boundary will they be ok or will have to remove them if roots are cut and they start to die 2 main point french doors will access new large flat roof and i will have a roof patio right on my boundary i am not happy with doors fixed or rail as this can be removed at anytime if doors are removed and window fitted i will have no ojection to extension with thanks micky roberts
