Hi Keith, Ian,

Good to meet you today on site.
I can confirm I am happy with the workmanship of the work witnessed today. The example of the finished benching was of a good standard. I am happy to have witnessed the air testing, with the ground water issues I am more than happy for the gang to test before it goes in the ground and each pipe as it is laid.
As discussed I would like to be on site to witness the m/hole to m/hole testing. If someone could give me at least 24 hrs notice before each test.
I will endeavour to visit site at least once a week until the run is complete. Hope this is OK.

Regards
