Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	I believe that the length and height of the rear extension will significantly reduce the amount of natural sunlight to our rear rooms and patio area where we sit from Spring into Autumn. It also will hinder us from making Improvements to our own property, as we had considered a conservatory, but the loss of sunlight would not permit that.

Could we please request a site visit in the New year.

Many thanks

Kind regards
