I have received the letter about 12, Windelsham Gardens Shoreham AW/DM/0401/15

This house is partly behind my property. I have no objections since other properties near-by have had similar additions. However I do find that the very large triangular window intended for the new roof room and facing East is totally out of keeping with the style of the 'arts and crafts' style 30s house and the surrounding properties. If such a window is necessary I think that it should be at the west end of the new roof room.

Please acknowledge receipt

THIS WAS TYPED PRIOR TO RECEIPT OF LETTER OF 13TH APRIL.
