RECOMMENDATION:	Advice
S106 CONTRIBUTION TOTAL:	n/a

This is the WSCC Highways response to the above application seeking approval of details reserved by Condition 15 (Footpath Surfacing Works) of approved application AWDM/1316/19.

Response.
The section of path concerned is not included in the S38 adoption plan previously circulated and as such, would remain private. However, it does appear to be on the course of a Public Right of Way. As such, a response to the surfacing treatment and proposed barriers should be sought from the County's Public Rights of Way team. It is noted, however, that if the path is intended to be used by cyclists, then the barriers shown are not LTN 1/20 compliant. Furthermore, if any barriers are deemed necessary, it is recommended that they are DDA compliant too.
