Date: 23 February 2011

Dear Mr Brownsey,

Final Phase of Ropetackle development, Shoreham-by-Sea: Submission of Travel Plan and Residents' Travel Pack under provisions of section 106 Agreement (ADC/0210/09)

Thank you for your letter of 15 January 2011, enclosing the above documents. I apologise for the delay in replying. Thank you for also copying me the comments you have received from Andy Mouland of WSCC.

I am pleased to be able to confirm approval of the Travel Plan itself, subject to the TRICS methodology referred to in para 5.4 being TRICS SAM surveys.

I also confirm approval of the Residents' Travel Pack (Green Travel Options) subject to its amendment to include:-

- Information about the WSCC '3-in-one' card giving concessionary fares for 5-19 year olds in full-time education;
- Information about concessionary fares (bus passes) for the those aged 60 years and over (shortly being transferred from Adur District Council to WSCC);
- The potential financial benefits of car sharing (eg. sharing a daily 10-mile drive to work with one other person would save about £400 in petrol costs alone);
- Reference to the proposed CycleStreets Journey Planner about to be set up on the westsussex.gov.uk website.

Yours sincerely,

Keith Morgan
Planning Services Manager
