Comments: The wooden shed at the bottom of the garden is very nice and is so useful for Denise. She has a day to day struggle and since this was built she is so much happier and her condition has been more manageable. I live next door and am in total favour of it. No light is blocked it is useful and well built. It does not interfere in any way with the neighbours and Denise needs it, before it was built there was a little garden shed that was an eyesore and this new build is really nice.
