Comments

Wonderful news - we will get some light at long last into our house again, not to mention sun.
The trees are ugly, the leaves get diseased and it is totally depressing looking at them -
I gather the reason the decision to have the ones felled opposite 1-4 was reversed (instead of allowing us to plant attractive trees) was because "it would spoil the view from the road" - as our block of 4 is quite different to the rest of the estate I have never understood the logic of this + it is impossible to keep a nice front garden because of the trees. Also my tree opposite has a lot of tangled bits of trunk, some almost dead - horrible!
Why should we suffer for the sake of the road - + shall have to pay full rates? Also we have to pay for the pollarding in order to give us light - a double iniquity!
