Dear Councillor Mrs.Sparkes

May I seek your assistance in supporting my objection and I understand those of other neighbours to the planning application AWDM/0246/24

I should have done this within 21 days of the date on the Planning Officers letter but I am just out of hospital and catching up on correspondence(I am 90 years +) so the rules may bar me from submitting a formal objection although I hope to be able to raise still this application with the appropriate Planning Officer.
I have no objection to the detail of the development with one major exception which is that the proposed roof height is higher than that of the existing building and the adjacent and other same buildings on that side of the road.Although a layman on planning matters I understand that such an issue is not permitted and indeed so far all similar Lime Tree Avenue extension approvals in recent years have had to conform to that height restriction.I assume that such an important factor is applied to retain the character of the neighbourhood and in my opinion to waive the height restriction would be totally out of character with that side of Lime Tree Avenue.
I had written originally to Cllr. Nowak but he suggested I should write to a Ward Councillor,albeit none is on the Planning Committee as that would be more appropriate ,he although being a member of the Planning Committee ,not being my Ward Councillor.
Thank you in advance
Yours sincerely
David Mahoney 62 Lime Tree Avenue
