Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	We object to the following elements of this proposal: The proposed increase to the ridge height of 1.1m is totally unacceptable to us. The appearance of no. 15 will significantly change and dominate the outlook from the rear of our property. It will also be completely out of keeping with the adjacent properties. We reiterate our previous objections to the full height opening doors to the rear dormers together with the "Juliet" balconies. The conservatory across the rear of our house is one of our principal living areas. This will be completely overlooked, compromising our privacy within in our own home. Similarly there will be a clear view from the proposed full height windows into our main bedroom. The current privacy in our rear garden will also be compromised.
