Dear planning officer Mare O'Keeffe
I have viewed the proposed plans and have no objections in principle to the new works
The only concerns are the plans to relocate the existing drain manhole and inspection cover
Would the relocation make any future drain issues, more difficult to resolve or improve this
As it appears recently no 14 (gff) was approach by no 13 to access their drain pit to clear a blocked drain at their property by a contractor (luckily they were in)
Obviously I would like assurances that this drain move would not impact on us or other owners within the exiting drain network
Also
What will the hours of work
How long will the work take
What notice will I be given if agreed
What noise levels
Both owners have all these concerns about the work, as one person is elderly,
and one works shifts
I can be contacted on this email
Yours
Mrs LJ Baker and Mrs CJ Windham
