adur and worthing planning office

dear sir or madam

I am objecting to awdm/1639/14 amendment for one extra roof light to rear elevation. as this would be the removal of a small velux window and fitting a much larger window. which would overlook my patio and garden losing my privacy. I have already lost a lot of light to my conservatory because of this extension . now it seems trying to lose my privacy too I hope you don't allow this to happen .

yours faithfully
