Dear Mr Bennett

I would like to say I have absolutely no objection to the proposed balcony construction, at 4 The Mariners, and cannot see how this would interfere with the privacy of the rear gardens in any way.

In no way would it be out of keeping with the area as we have a large block of flats which all have balconies.

Also I do not feel it would invade the privacy of any home in our close. Having known Mr Sharpe for approximately fourteen years, I can not imagine that the small addition of a balcony would suddenly make him become a noisy or inconsiderate neighbour.

I would also like to add that at some point in the near future I might consider having a balcony built myself, and am sure other residents may also consider this.

Yours sincerely

Vanessa Nichole Adamson
