Dear Sir,

Re : **Support for Planning Application ADC/0231/10**

With regards to the above application we have seen the plans for this development and, in our opinion, this is an excellent and forward thinking development and we are very pleased to see the Council consider more modern and environmentally efficient designs that have a positive impact on the rather 'aged' looking sea front.

We were pleased to see that the first proposal was abandoned and the revised proposal is much more in keeping with original building height.

We hope that with these sorts of development Shoreham can be seen as a modern living place and attract investment into the area whilst adding character and value to surrounding properties and potentially increased opportunities for local businesses.

Yours sincerely,

[redacted]
