Dear Gary Peck,
Am horrified at letter received this morning about proposed changes at the above
You will probably remember the trouble I had before and living right next door overlooking the building and at my age - 91 years plus and immobile, I dread to think what my life will be like.
This should not be allowed - no objection to anyone enjoying life but last time my life was hell, still awake at 2am plus swearing etc, drunk people especially females ashamed to say.
My family live in London and Kent, too far away to keep coming down.
When I moved here getting on for 7 years now it was so quiet and peaceful.
Please look into this for me, will be very grateful.
Mrs Georgina Owen,
55,Amelia Court,
1, Union Place.
