Attention: Peter Barnett

23 October 2010

Dear Sir,

Ref: ADC/0382/10
15 Havenside, Shoreham By Sea

Thank you for your letter advising us of the above proposal.

Having examined the details of the plans at your offices we object to the following element of the proposal:

The full width first floor balcony which will result in the total loss of our privacy.

- The conservatory across the rear of our house is one of our principal living areas. This will be completely overlooked compromising our privacy within our own home.
- Similarly, there will be a clear view from the proposed balcony directly into our main bedroom. This is exacerbated by the size, of what appears from the plans to be, large full height folding doors to the two rear bedrooms.
- The current privacy in our rear garden will also be significantly compromised by the proposed balcony.

Whilst we have no objection to Mr. Wheeler improving the quality of his home we feel that the proposal in its current form is at the expense of our own degree of privacy.

We invested in our property to enjoy the seclusion of our conservatory and small rear garden. This would be totally negated by the proposed development.

Yours sincerely

[redacted]

MIKE BRADFORD
