PLANNING SERVICES

30/09/2015 Your Ref: AWDM/1266/15

Dear Sirs,

I write with my concerns following my visit earlier today and speaking to Dawn Ayres.
My neighbour is away and so I cannot direct my concerns to him.

The application you have does not reflect the fact that the current extention at No.6 is attached to my extention. If this is demolished, what happens to my property? Does permitted development cover demolition, or should this require a planning application?
The drawings submitted show a part pitched roof replacing the existing flat roof which abutts our flat roof. With no building regs application it is difficult to see how this would not either result in water draining onto our property or having rainwater goods on my property for the new roof. Neither of these options is acceptable.

I look forward to your comments and I understand a site visit is likely before a decision is made.

Yours sincerely

[redacted]

T. J. Thorne
