Re: AWDM/0154/15. 17 Whiterock Place, Southwick

Dear Sirs,

I am writing to object to the planning application notified by you last week for work to my neighbour's house at the address above. This is also linked to the previous retrospective application dated 2003 SW/52/03/TP/20593.

The current proposed plan would not only reduce significantly the light in our Kitchen but also our dinning area. I am also surprised to see the plans include the unapproved work already carried out.

We have recently carried out a loft conversion that we gained all relevant approval for and adhered fully in all respects prior to works being carried out, during and for completion inline with Adur District Council. Extending his rear building out and above at the level of our roof space would significantly impact the lighting addition to the privacy breach already in play.

[redacted]

[redacted]

[redacted]

We would like to close by making it clear; we have no objection to the property being extended upon provided it does not interfere with our natural light or privacy.

Yours Faithfully

Mr & Mrs DMA Robertson
