Dear Mr Appleton

Proposed reduction and resurfacing of 2 parking areas on west side of block fronting of Kings Walk (reduced area to be replanted with grass) Kings Court, Beach Green, Shoreham-by-sea.

I am writing to oppose the above planning application on behalf of myself and Miss Millard at Flat 1.

When your letter was sent to us we thought it referred to the proposed extra car parking applied for in another part of the complex. It was unclear what area was to be resurfaced. However I have recently been informed that the area to be resurfaced is part of our car park. I cannot I understand the rationale for this and I am strongly against this as we need all the parking in this area that we can. Also 3 of the residents who use this car park don't even have cars at the moment so if that was to change it would be chaos. More to the point we have never been consulted as to whether or not we wanted this change by the committee of Kingnel Management Company which seems really odd as we are the ones being affected.

We need the parking space we have at the moment and resurfacing can only lead to more congested road parking. Since the yellow lines have been taken away this can be really bad especially when there are a lot of visitors to the beach.

I look forward to your comments.

Yours sincerely
