Dear Sir/Madam

Re: Elm Grove - Overgrown Vegetation

During a recent inspection, it was noted that the vegetation on your land/property obstructs the carriageway.

As it is reducing the width of the carriageway, we would therefore be grateful if you would take prompt action to cut the overgrowth to your boundary.

Please note that we have received multiple complaints that the trees and brambles at this location are unmaintained and currently obstructing on-street parking and access for high sided vehicles. The lack of maintenance is leading to issues of fly tipping. The site also has a number of Ash Trees which should be assessed and monitored for potential Ash Die back. Please ensure that these trees are routinely inspected by a qualified Arboriculturist and that any works identified as necessary are undertaken to ensure the safety of the highway users.

It is the responsibility of the owners/occupiers to prevent their vegetation from interfering with the use of the highway and as part of its duties, the County Council carries out regular highway inspections to ensure these problems do not occur. Overhanging vegetation can cause a problem for pedestrians, particularly those who are blind or partially sighted or who have mobility problems and low vegetation overhanging the highway may be at face/eye level for the very young.

We do ask that you therefore please arrange for the vegetation to be cut back, within the next 14 days from the date of this letter, so that no part of it overhangs the carriageway.

Should you wish to discuss this any further, please feel free to contact us quoting the reference number above, we appreciate your co-operation with this matter.

Yours faithfully

Lucy Mack
Highways Steward
