PLANNING SERVICES

22 February 2020.

Dear Madam,

Your ref AWDM/1273/19

Amendment AWDM/1771/17

Thank you for your letter dated 20 February 2020, regarding the above amendment to application.

As you are aware the process of this planning application goes back many many years. The original house that we saw plans for was, a modest detached four bedroom house, with garage surrounded by mature trees. We are now considering an application to amend what will potentially be a seven bedroom much larger house with very few trees left around it. The concern about the trees was a point I wrote to the council about several years ago when the house started to grow.

Windows in a roof ultimately lead to rooms in that roof and steels, insulation and boarding out in a garage space will also obviously lead to rooms, especially when the said 'storage' space is linked to the main house.

Although the property has a marginal impact on me, apart from loss of open space and preserved trees, I feel it is becoming an over development of that piece of land.

It just seems to be build whatever you like and then submit an amendment, sit back a wait and see if we get away with it. I wonder what will be next?

Thank you for reading this and I remain,
