Development Management – Delegated Officer Report

Application Number: AWDM/1219/25 Recommendation: – APPROVE

Site: 18 The Heights Worthing West Sussex BN14 0AL

Proposal: Part single storey, part two-storey rear extension; front porch; single storey side extension; rear raised patio and alterations to fenestration

Date of Site Visit: 04.11.25

Neighbours Checked: Y

Additional Neighbours Notified: N

Site and Surroundings

The site is located to the west side of The Heights within a residential area.

The property comprises of a detached two storey brick house with small two storey central front projection with hipped roof and a further flat roof porch beyond. The property has a single storey attached garage to north which is set back from the front elevation. There is a single storey flat roof utility room to the southern side, also set back from the front elevation.

The building is set back from the road with a driveway to the northern side and a landscaped front garden. There is a low wall to the frontage with The Heights.

The Heights comprises a mixture of house types, designs and frontages with the road and site on a slope.

The property is not within a conservation area, is not a listed building and there are no protected trees on site

Proposal

The application is an amended scheme following approval for extensions in April 2025 for part single storey and part two storey extensions.

The current application proposes an extension to the two-storey extension to the rear to the southern side extending the width of the extension from approx. 3m to 4.2m. The extension would still project approx. 3.2m from the rear with a pitched roof that is set down from the ridge. It would be set in approx. 2.8m from the northern boundary.

As previously a single storey wrap around extension is proposed to the west and south elevations, part of which is a replacement to existing. The extension would project approx. approx. 3.2m to the rear. The extension would have a shallow pitch

roof to the rear and flat roof to the southern side. There would be steps down from the extensions into the garden which is at a lower level to a patio.

The current proposal also involves a single storey extension to the north which is partly within the footprint of the existing garage. It would be approx. 1.8m deep with a width of approx. 3.2m. It would have a lean-to pitch roof.

A small pitched roof porch is proposed to the front.

The glazing has slightly changed to reflect the proposed extension and patio steps relocated.

The extensions would be finished in matching brick and tiles.

Relevant Planning History:

AWDM/0719/12 - Two-storey hipped roof rear extension (with centrally located inset first floor balcony); ground floor rear conservatory; raised deck; pitched roof over north side garage; and new roof over existing porch
STATUS: Application Permitted 12th September 2012.

AWDM/2087/21 - Remodelling of dwelling including part single-storey and part two-storey extensions to North, South, East and West elevations and new raised terrace/patio to rear (West).
STATUS: Application Withdrawn 23rd December 2021.

AWDM/0288/24 - Construction of two-storey front (east) and side (north) extensions, construction of single storey rear (west) and side (south) extensions and associated alterations.
STATUS: Application Permitted 6th June 2024.

AWDM/1440/24 - Demolition of existing garage and construction of two-storey front (east) and side (north) extensions, construction of single storey rear (west) and side (south) extensions and associated alterations.
STATUS: Application Permitted 11th December 2024.

AWDM/0274/25 - Part single-storey, part two-storey rear extension; replacement front porch; raised rear patio; alterations to side elevation to form mono-pitched roof.
STATUS: Application Permitted 23rd April 2025.

Planning Assessment:

There is no objection in principle to extensions and alterations to residential dwellings within the built-up area. The key considerations are the effects on the visual and residential amenities of the locality.

Visual Amenity

No 18 is situated near to a corner and roundabout on The Heights, it is a two-storey dwelling between two bungalows, the property to the south is a chalet bungalow with rooms in the roof space. There are however many examples of two storey housing along the road.

The application site is set well back from the road with mature and semi mature landscaping to the frontage. No 19 to the south is set further forward in the road than No 18, immediately to the north- west No 24 Ashfold Avenue relates more to the bungalows of Ashfold Avenue.

The scheme now proposes an extension to the two storey element to the rear and a single storey extension to the north. The corner position means that the rear two storey extension would be visible in views at a distance, however the additional 1.2m of extension would be wholly at the rear and set back it is not therefore considered that the addition would be unduly prominent.

The proposed two storey rear extension is in character with the existing dwelling and would not be unduly prominent and a separation would be maintained to the property to the north-west.

The proposed single storey to the north boundary would be at the rear proportion, partly within the existing garage. Due to existing development and set back from the street the extension would not be prominent.

The design and form of the extensions are therefore considered acceptable and would not detract from the character of the existing building.

The proposed extension would not appear dominant or incongruous in the street scene, there would be no significant harm to the visual amenities of the area resulting from this proposal.

Residential Amenity

The most affected properties are the neighbours to the north (24 Ashfold Avenue) and south (19 The Heights).

In terms of No 24 Ashfold Avenue, this property is to the north side. It comprises a detached bungalow. The bungalow occupies a corner site with a wraparound garden with the main private garden to its southern side. The bungalow itself is approx. 12m

from the boundary. The property has windows on the southern side facing the proposed single and two storey extension.

There is already a garage on the boundary of the application site which will now be retained, the single storey extension would be partly within the garage footprint and set off the boundary by approx. 1.1m. It is not considered that the single storey extension would have a detrimental impact on this property in view of the set back and existing development on the boundary. There are no overlooking windows.

The proposed extension to the first floor extension would be on the opposite side to No 24 and its enlargement would not have a detrimental impact on this property.

In terms of the impact on No 19 to the south, this property has a garage up to the joint boundary and some first floor windows facing north set back off the boundary. The proposed extension to the first floor would mean that element would be closer to the boundary, however it is set back over 6m from the southern flank elevation of No 18 with no windows in the south elevation. The extension would be north. It is not considered that it would cause detrimental loss of light or visual impact to this property.

There would be no significant harm to residential amenity resulting from this proposal.

Recommendation

APPROVE subject to Conditions:-

1. Drawing Numbers
2. Standard time limit
3. Matching materials
4. No openings to side elevations of extension

Informative

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Is recommendation contrary to letter(s) of representation? N
